## UAC Applications Opening

Applications for study at uni in 2022 are opening this **Thursday 1 April**. Students will be able to apply for undergraduate study as well as Schools Recommendation Schemes, Educational Access Schemes and Equity Scholarships.

Although not all courses for 2022 will be available, encourage your students to choose any 2022 course to complete their application and come back later to review and change their preferences as courses come available. All semester 1, 2022 courses will be available from August.

Early bird applications will close at midnight on **Thursday 30 September** and Schools Recommendation Schemes will close on **Sunday 19 September**.

## UAC PINs

Students will receive their UAC PIN on **Thursday 1 April** and will be able to apply straight away. PIN emails will be sent to the email address NESA has on file.

Remind your students to update their email address with NESA, preferably to a personal email address (rather than a school one), so they can be contacted by UAC in December when they have left school.

## The UAC Guide

The UAC Guide will be arriving at schools from the beginning of Term 2. Contact UAC if there are any issues with your school's delivery.

The Guide contains everything Year 12 students – both undergraduate and international – need to know about applying for uni in 2022 in one handy publication. Comprehensive course descriptions will be added to UAC's website as they are finalised by the universities. Encourage your students to check UAC's website regularly.

## Introducing UAC Digital

21 April. 6pm to 7.30pm

For students, there will be a **Year 12 Conference** on Wednesday 21 April where they can hear from participating universities and UAC about study options. More information here.

UAC Digital is a new online platform established by UAC's Community Engagement team. Throughout the year, they will present a range of free webinars for students, careers advisers, parents and anyone navigating their path to higher education.

These will include live briefings and Q&A sessions on the application process, panel discussions with experts on moderation and scaling, and introductions to the many and varied universities in NSW and the ACT.

Throughout the year there will also be a series of sessions for students focused on popular fields of study like medicine and teaching. The 'Let's Chat' series will bring together academics and students for a conversation about what they can expect from their course and how to submit their application. Sessions are being added so check back regularly for new events.

## **Applying and studying in the UK**

What it's like to study in the UK as an international student, and how to apply to a UK university.

The UK is one of the world's most popular destinations for international students. More than 485,000 EU and international students enrol in the UK each year. Of these, 143,000 are from the EU.

You have a choice of over 140 universities and other higher education institutions. Each offers a range of tertiary qualifications recognised around the world.

Tuition fees vary between institutions. After Brexit, from August 2021 most EU and EEA nationals won't be eligible for home fee status unless they're from Ireland or are already living in the UK and registered under the [EU Settlement Scheme](#).

You'll need to be aware of visa conditions, English language requirements and work permit restrictions.

Use this guide as well as other information and advice found across our website. Our [UK university rankings](#) are a good place to start.

### **AIE Animation Industry Experience Days – Sydney, Canberra, Melbourne, Brisbane**

7th July

30th September

Limited places available.

AIE's Industry Experience Days are a great opportunity for students in Years 10, 11 and 12 to learn about the local and international game development, 3D animation and visual effects industries. Students will get the opportunity to learn about the different pathways to get into the industry, what should be in a portfolio and will be able to get creative in practical workshops using industry-standard 3D animation and game development tools.

The sessions are run by industry professionals who have worked on some blockbuster games and films. Everything is provided for you to participate in the hands-on workshops and you will be using the same software that is used in the industry.

If you are thinking about a career in the games or film industry then we highly recommend registering for this free event. We are limiting numbers for this event due to physical distancing requirements, with Year 12 students having priority to register.

## What Will the Future Workforce Look Like?

It is no secret that the job paths and skills of young Australians are about to experience significant change, moving away from routine, manual tasks into a world of automation and critical innovation. This great shift in the working order has seen a change in priorities both at work and in career trajectories, with an increasing number of young people being left behind as the working world moves forward.

## Practice Tests for Cabin Crew Entrance Used by International Airlines

Are you fully prepared for the cabin crew recruitment process? At most airline's, long gone are the days where you could simply turn up at an Open Day and hope the recruiter liked the look of you. Nowadays, you have to submit a detailed online application including a bespoke resume or CV to stand a chance.

Luckily, we've sat through many of these online cabin crew exams and know exactly what international airlines are testing candidates on. With that knowledge, we've created a series of bespoke practice tests to help you prepare for the cabin crew application tests. **And the best bit? – they're completely free!**

## **How to ace Year 12**

Although based around VCE, the principles are much the same for achieving your best Year 12 results.

Year 12 can put a lot of pressure on you, but think about this: 'whatever your goals may be for the future, keep in mind that there are many paths to the top of the mountain, but the view is the same'. That's some pretty sound advice from Phil Newnham, a teacher and careers practitioner in a large government school in Melbourne's east. Phil also recommends you 'plan for your future but don't let it get in the way of a successful Year 12 – nothing is final; there are always other options.'

## **Commonly Asked Interview Questions**

What are some of the most commonly asked job interview questions and how should you answer them? Here's what the experts have to say. Job interviews often follow a common pattern. Many of the same questions come up again and again. If you know what those questions are, you can prepare for an interview by coming up with ways to answer them. You could also practise your answers before an interview.
