

St Clare's High School BYOD Program 2022

OVERVIEW

St Clare's High School Student Device program is modelled on a Bring Your Own Specified Device (BYOSD) model, where the school recommends a specified level of device and invites parents to purchase a device meeting these requirements. This is similar to the way the school sources, and then recommends, uniform suppliers.

WHY A SPECIFIED DEVICE?

A specified student device program has several advantages including:

- Introducing consistent hardware and software that can enhance engagement, deepen learning, increase feedback, personalise learning, and make the best possible use of classroom time
- Minimising disruptions caused by incompatible hardware and software
- Allowing staff and students to assist with minor troubleshooting
- Access to business grade devices, warranties, and repairs
- Streamlining ICT support and warranty and repair processes

"Technology will not replace great teachers but technology in the hands of great teachers can be transformational" George Couros

WHEN ARE DEVICES USED AT SCHOOL?

Devices are learning tools used regularly as part of the school day. This includes accessing the school portal for school administration and news, regular use during teaching and learning, including access to compass. While the laptop may not be used in every lesson, it is expected that students are ready to use it alongside the other tools for learning.

WHAT TYPE OF DEVICES DO STUDENTS USE?

Students use a Windows based 2-in-1 hybrid device, which integrates all the features of a laptop with the flexibility of a tablet.

There are TWO levels of device recommended:

- Junior Device for Years 7-9 – with less computing power
- Senior Device for Years 10-12 – a device with greater computing power and better graphics capacity.

HOW DO I PURCHASE A DEVICE?

Parents are free to purchase from any retailer but in doing so they need to ensure the chosen device meets ALL minimum specifications as per the table over page. Note that these are the base levels of compliance. Alternatively, parents may choose to purchase a school recommended device from a recommended supplier supplying a device tested and supporting all software and incorporating 3-year warranty and support and accidental damage protection.

Who pays for the technology brought to school?

These devices will be purchased by and remain the property of the student/family.

What will be provided by the school?

- A filtered Wi-Fi internet service.
- Microsoft Office 365
- Adobe Creative Cloud
- **N.B.** Virus protection software is **NOT** provided by the school and is a parental responsibility.

WHAT SUPPORT IS THERE FOR STUDENTS?

Students are provided training in the use of software via an induction program (Year 7) and ongoing learning in classes.

Students are provided ICT support by Mr Gibbs, the ICT Support Officer and Mr Carney The DIAL Coordinator. If the device was purchased via the school portal then Mr Gibbs can lodge a warranty claim. If parents purchased through a retailer, then they would need to organise support themselves.

REQUIREMENTS AND RECOMMENDATIONS

The recommended specifications are as follows:

Form Factor	The tablet must have a PHYSICAL KEYBOARD and have a TOUCH SCREEN.
Physical Features	Minimum Screen Size of 10" (Inch) (Max.15") TOUCH SCREEN
	Camera (Front and World Facing) Minimum 4Gb Ram with 8Gb preferred. Recommended 256Gb Hard Disk Drive.
Operating System	Windows 10 Home or higher. (Windows 10s will NOT work at school) Apple devices may not offer the same level of integration on the diocesan network and little support can be offered.
Battery Life	Advertised Minimum of 8 hours (the longer the better)
Wireless Capability	802.11a/b/g/n/ac (to connect to the Diocesan network at school)
Warranties and Insurance	Recommended 3-year warranty of devices. We recommend you seek insurance for your investment and Accidental Damage Protection (ADP)
Software	Office 365 and the Adobe Creative Suite is available free to all students at St Clare's whilst ever they are enrolled. YOU DO NOT NEED TO BUY THESE PRODUCTS

CAN I CHARGE THE DEVICE AT SCHOOL?

Students are expected to charge their device at home ready for the school day. No other charging facilities are provided, and students are not to bring their chargers to school.

HOW ARE STUDENT DEVICES KEPT SAFE?

Students and parents are encouraged to keep the device in a sleeve, ideally one that is water resistant. Many school bags have a device pocket for added security during transport. The option is available to purchase a specialised laptop bag

There are lockers available for rental at school and these can be secured with locks and provided for storage of not only the device but other students belongings during a school day.

The school accepts no responsibility for accidents, damage, loss or theft of a student device.

HOW ARE STUDENTS KEPT SAFE ONLINE?

Students are kept safe online through the Catholic School's web filtering service that generally prevents students accessing inappropriate materials.

Student devices are monitored by teachers throughout the school day.

Student devices used at home are not monitored, and parents are encouraged to investigate ways of keeping students safe online. The Office of the eSafety Commissioner has resources that can assist parents.

Students are expected to refer to the Cybersafety User Agreement for Secondary Students as outlined in and provided as part of the enrolment process

Virus protection software is **NOT provided** by the school and is a parental responsibility.

WHERE TO FROM HERE?

If you require any advice please contact Mr Carney (Phillip.carney@mn.catholic.edu.au) the school's Coordinator of Digital Innovation And Learning (DIAL)

If this cost causes you concern, please make an appointment to meet with the Principal.

Parents can purchase a device of their "choice" that complies with St Clare's minimum specifications at any time. For parents wishing to buy from the school purchase portal please see the details below.

Purchase Portal Link:
