

JobJump Careers News Subject Bulletin

29 July 2021

**IMPORTANT MESSAGE TO HEAD TEACHERS and ALL STAFF
and to Parents,**

It may only take one piece of news to lead a student towards success in their life's career.

If you know students enjoy your subject, this is a great way to assist them, so please encourage them to take part in those events mentioned below in your Subject Area. Find below a listing of special careers news that have also been emailed out to many of our students and their parents.

SPECIAL MESSAGE REGARDING EVENTS LISTED AND COVID-19

Events listed are presented as reported from the home website at the time of collection from the news source. We strongly advise you check directly with the event organisers regarding the delivery of the event due to current restrictions.

HSC SUBJECT KLA / FACULTIES

CAPA

Dance, Drama, Music, Visual Arts

University of Sydney Additional Admission Criteria - Music

Audition or interview

Students who want to study at the Sydney Conservatorium of Music will need to register to attend an audition or interview. Registrations are open for September. Students wishing to be considered for an early offer through CASAS should submit their portfolio before midnight Sunday 19 September.

UOW College UOW College's Diploma of Screen and Media Online Information session

18th August 5:30 - 6:30pm

Find out more UOW College's Diploma of screen and media course. We will provide an overview of course structure, entry requirements and job outcomes. Applications are open now! Register for the information evening here:

<https://www.uowcollege.edu.au/events/>

TAFE NSW Schools Launchpad Virtual Course – Games Design

The international games industry is worth billions of dollars, and students could be a part of it. They can get their dream career and put years of gaming experience to good use as they learn to create concepts, storyboard and animate characters, and write code to power game engines and drive storylines.

Love to see the masters of Film? Sydney Film Festival

18 to 29 August 2021

Welcome to the 68th Sydney Film Festival. Australia's premier international film festival takes place over 12 days and nights, showcasing the greatest, strangest and most exciting works that cinema has to offer.

From 18-29 August 2021, be the first to see new festival favourites and award-winners, dramas, documentaries, thrillers, comedies, cross-genre experiments and art-house cinema from around the world. For first reveals about the program, screenings and filmmaker guests, sign up to the [SFF eNews](#). Single tickets were scheduled to go on sale on Wednesday 21 July, however due to the current restriction in NSW Sydney Film Festival has made the decision to delay the Program Announcement of the 68th Edition. The Festival remains committed for an in-cinema COVID Safe event, and will make further updates regarding on-sale dates via eNews.

Academy of Interactive Entertainment (AIE) – Industry Experience Day

28th September - Canberra campus

30th September - Sydney, Melbourne, Adelaide and Online campuses

AIE's Industry Experience Days are a great opportunity for students in Years 10, 11 and 12 to learn about the local and international game development, 3D animation and visual effects industries. Students will get the opportunity to learn about the different pathways to get into the industry, what should be in a portfolio and will be able to get creative in practical workshops using industry-standard 3D animation and game development tools.

The sessions are run by industry professionals who have worked on some blockbuster games and films. Everything is provided for you to participate in the hands-on workshops and you will be using the same software that is used in the industry.

If you are thinking about a career in the games or film industry then we highly recommend registering for this free event. We are limiting numbers for this event due to physical distancing requirements, with Year 12 students having priority to register.

https://aie.edu.au/aie_event/industry-experience-day/

Excelsia College Early Offer Program – Music, Drama, Screen

Applications are open until Saturday 28 August, 2021.

Apply Now

Your opportunity to secure a place at the No.1 rated college in NSW for Skills Development in Creative Arts*

If you are currently in Year 12, the early offer program gives you the peace of mind and assurance of securing a place to study the Bachelor of Music, Bachelor of Dramatic Art or Bachelor of Screen Production before you sit your HSC exams! This means you can be offered a place to your chosen course conditional on you completing Year 12 for ATAR students and successfully completing your pathway if you are a non ATAR student.

Early Offer applications are now open for Semester 1 2022. The Excelsia College Early Offer Program is an opportunity for talented artists to celebrate and be rewarded for their dedication in the areas of Music, Drama or Screen Production.

Please review the criteria below and fill the enquiry form on this page to apply for the program. For students who have already completed their HSC, click the following button to fill the online application form.

Bachelor of Data Science at S P Jain

Global demand for data science and computing expertise exceeds supply, with predictions of a major shortage of analysts for at least the next 10 years. For graduates in Data Science, this presents a high potential employment opportunity.

SP Jain's Bachelor of Data Science (BDS) is a 3-year undergraduate program designed to prepare graduates who can conduct data-driven investigations and visual and advanced analytics by acquiring and managing data of all types. Through this program, students will develop an in-depth understanding of data science and the techniques for analysis of quantitative and qualitative data to arrive at solutions. They will be able to identify patterns in order to predict trends from analysing data of various sectors such as manufacturing, banking and finance, retail and healthcare.

<https://www.spjain.edu.au/programs/undergraduate/bachelor-of-data-science>

Eating for the Planet Webinar

18 August. 7pm

This free webinar will explore the relationship between the food we eat, agriculture, health, and climate change, and how we can improve our health by Eating for the Planet.

It will also launch our e-book about how to start a food coop.

Food sustains us, so let's talk about how to ensure that our choices around eating also help sustain the planet (and no, we are not going to tell you all to go vegan!).

Eating provides us with many opportunities to have a positive climate impact. One option would be to collectively purchase and we'll show you how via our e-book on starting a food co-op which we will be launching during the webinar. However, many small changes can have a big impact when it comes to food, so come along and we're pretty sure you'll leave with at least one thing you can do right now to reduce your carbon footprint.

<https://events.humanitix.com/eating-for-the-planet>

Barcats Hospitality Recruitment Platform for U18's - Part-time and Casual work

Barcats launches U18s site for part-time / casual jobs Barcats is the fastest growing hospitality recruitment platform in Australia and has recently launched the U18s site. Apply Now

Your opportunity to secure a place at the No.1 rated college in NSW for Skills Development in Creative Arts*

If you are currently in Year 12, the early offer program gives you the peace of mind and assurance of securing a place to study the [Bachelor of Music](#), [Bachelor of Dramatic Art](#) or [Bachelor of Screen Production](#) before you sit your HSC exams! This means you can be offered a place to your chosen course conditional on you completing Year 12 for ATAR students and successfully completing your pathway if you are a non ATAR student.

Early Offer applications are now open for Semester 1 2022. The Excelsia College Early Offer Program is an opportunity for talented artists to celebrate and be rewarded for their dedication in the areas of Music, Drama or Screen Production.

Please review the criteria below and fill the enquiry form on this page to apply for the program. For students who have already completed their HSC, click the following button to fill the online application form.

Bachelor of Data Science at S P Jain

Global demand for data science and computing expertise exceeds supply, with predictions of a major shortage of analysts for at least the next 10 years. For graduates in Data Science, this presents a high potential employment opportunity.

SP Jain's Bachelor of Data Science (BDS) is a 3-year undergraduate program designed to prepare graduates who can conduct data-driven investigations and visual and advanced analytics by acquiring and managing data of all types. Through this program, students will develop an in-depth understanding of data science and the techniques for analysis of quantitative and qualitative data to arrive at solutions. They will be able to identify patterns in order to predict trends from analysing data of various sectors such as manufacturing, banking and finance, retail and healthcare.

Eating for the Planet Webinar

18 August. 7pm

This free webinar will explore the relationship between the food we eat, agriculture, health, and climate change, and how we can improve our health by Eating for the Planet.

It will also launch our e-book about how to start a food coop.

Food sustains us, so let's talk about how to ensure that our choices around eating also help sustain the planet (and no, we are not going to tell you all to go vegan!).

Eating provides us with many opportunities to have a positive climate impact. One option would be to collectively purchase and we'll show you how via our e-book on starting a food co-op which we will be launching during the webinar. However, many small changes can have a big impact when it comes to food, so come along and we're pretty sure you'll leave with at least one thing you can do right now to reduce your carbon footprint.

Careers In Shipping

The shipping industry plays a vital role in international trade and in the economic progress of most countries. Because of its international involvement and operations it is different in many respects from other industries. Because of this it offers interesting and diverse career opportunities.

Shipping operates in a keenly competitive international market and as the growth in international trade increases and ships to carry the trade are in greater demand, career prospects also improve.

Employment opportunities arise for bright young people with or without their higher school certificate or university degrees. On-the-job training is available for everyone to learn about the shipping industry. Positions also become available for graduates or those who already have professional qualifications. The shipping industry attracts a wide range of disciplines including accounting, IT, customer service, marketing, logistics and international business. In more specialised sectors of the industry, ship chartering and broking skills are often in demand.
